

## AIA Lunch and Learn Programs 2019

### Exposed Aggregate Concrete

*Reveal the Beauty that Lies Beneath*

**2E0713**

Understand how to make appropriate exposed aggregate systems selections based on environmental impact, performance requirements, aesthetics and budget. 1-hour program providing AIA architects with 1 LU HSW toward their annual requirements.

### Decorative Concrete

*Innovative Applications for  
Architectural Concrete*

**2F1011**

Learn the methods, techniques and processes to color, pattern and texture concrete and how to integrate them into a concrete surface design system. 1-hour program providing AIA architects with 1 LU HSW toward their annual requirements.

### Void Structured Concrete

*Functionally Beautiful and  
Environmentally Friendly*

**2G0713**

This program is designed to look at concrete cast with voids or openings as a decorative, structural and environmentally-friendly option to traditional non-pervious concrete or unit-type non-pervious pavements. 1-hour program providing AIA architects with 1 LU HSW toward their annual requirements.

### Interiors

*Exploring Design Flexibility of  
Architectural Concrete Surfaces*

**2I1011**

This program examines the latest techniques and trends in decorative concrete flooring, including overlays, micro-toppings and textured/imprinted options. 1.5-hour program providing AIA architects with 1.5 LU HSW toward their annual requirements.

### Exploring the Capabilities of Specialty Concrete Products Tour

**2T0713**

This walking tour of the Texas Bomanite showroom examines the latest techniques and trends in decorative concrete flooring, including overlays, micro-toppings and textured/imprinted options. 1-hour program providing AIA architects with 1 LU HSW toward their annual requirements.

### Concrete Polishing

*A Sustainable Flooring Option*

**3P0713**

Learn to identify and understand the concrete polishing processes and procedures as well as the benefits to utilizing concrete over other flooring/paving options. 1-hour program providing AIA architects with 1 LU HSW toward their annual requirements.
