

Bomanite® Pattern Selection Guide

BOMACRON PATTERNS

Bomacron patterns are a textured version of the original Bomanite patterns. This product is cast-in-place, colored and imprinted, plus it provides added dimension of texture and relief between the joint lines (shallow joint configurations).

Please note: In this selection guide the following tools can be used for Bomanite Thin-Set applications: Ashlar Slate, English Sidewalk Slate, Basketweave Used Brick, Herringbone Used Brick, Running Bond Used Brick, Soldier Course Used Brick, Stacked Bond Used Brick, Boardwalk, Random Boardwalk, Basketweave Boardwalk, Wood End Grain, Garden Stone, 12" Braided Border and Yorkshire Stone. The following textures are available in seamless texture mats and can also be used for Bomanite Thin-Set applications: Canyon Stone, Coquina, Granite, Limestone, Sandblast Limestone, Regular Sandstone, Light Sandstone, Regular Slate, English Slate, New Light Slate and Used Brick.

For a full list of Bomanite Thin-Set patterns please visit our website www.bomanite.com.

Design Considerations

Bomanite and Bomacron are not usually intended to be an exact simulation of natural materials but are sometimes utilized to achieve a similar feeling or appearance. Bomanite and Bomacron tend to have a rustic feel and certain variations in color, texture and geometric precision are expected. Both are handcrafted from a large mass of concrete under varying jobsite conditions and, therefore, do not have perfect uniformity. If you are unfamiliar with the appearance of Bomanite or Bomacron, we recommend that you contact your local Bomanite Franchise Partner to view actual installations or samples.

Custom Patterns

The patterns depicted on these pages are only some of the patterns that are currently available from your local Bomanite Franchise Partner and Bomanite Corporation. If you are unable to find a pattern that fits your particular project needs, consult your local Bomanite Franchise Partner regarding the design and production of custom patterns.
